BRAND
STORY

Meet the company behind some of the **world’s most resilient** and refined quartz surfaces — PACIFIC.

With an expansive portfolio of precision-engineered prefabricated solutions tailored to exact project requirements, PACIFIC delivers scale without sacrificing sophistication. Each surface is manufactured using advanced Bretonstone® technology developed by Breton S.p.A. of Italy, within state-of-the-art production facilities engineered for consistency and performance.

Backed by decades of material expertise and design intelligence, PACIFIC curates collections that move effortlessly from timeless natural expressions to bold contemporary statements — from soft, nuanced grains and luminous whites to expressive veining and deep, architectural solids.

In India, PACIFIC partners with globally respected home and kitchen brands, leading retail chains, and premium European boutique studios. Our role extends beyond supply. We deliver fully fabricated, bespoke solutions supported by streamlined single-day installations. Precision prefabrication to micron-level tolerances minimizes on-site disruption, reduces debris, and optimizes material use with measurable efficiency.

Operating with a team of 960+ skilled professionals and an advanced manufacturing infrastructure capable of producing over 1 million square metres annually, PACIFIC is built to serve both boutique design studios and large-scale global projects with equal precision and reliability.

Composed of up to 93% quartz — one of nature’s hardest minerals — PACIFIC surfaces are engineered for structural integrity and enduring beauty. Proprietary processes, including globally patented vibrocompression vacuum technology, produce exceptionally dense, non-porous slabs designed to resist stains, scratches, and the demands of daily use.

We utilize advanced processing technology and precision-engineered machinery to ensure exceptional quality and consistency. Every surface is crafted under strict manufacturing standards to deliver superior performance and finish.

TECHNOLOGY & INNOVATION

Breton Robotic Manufacturing

Our production line is powered by Breton's Royintegrex robotic system — the same technology used by the world's most advanced stone manufacturers. These robots craft exotic designs with precision and consistency that manual processes simply cannot match.

High-Speed Production Line

With an annual capacity exceeding 1 million square metres, our factory meets the most demanding project timelines. Every slab undergoes rigorous quality inspection before leaving the facility.

Inlayer Technology

Breton's Inlayer technology infuses water-based ink up to 300 microns deep into the slab surface. Unlike surface-level printing, this creates full-body colour that survives polishing, edge detailing, and years of use. Anti-fingerprint coating and UV-Armour treatment are standard.

Industry 4.0 Principles

Our manufacturing processes are driven by Industry 4.0 principles, integrating advanced digital technologies, machine learning, and real-time data monitoring. This intelligent ecosystem enables greater automation, improved efficiency, and precise control across every stage of production, ensuring consistent quality and faster decision-making.

Six Sigma Practice

We follow the Six Sigma methodology to maintain the highest standards of manufacturing excellence. By continuously analyzing processes, identifying root causes of defects, and reducing variability, we ensure consistent manufacturing excellence.

HOW TO READ THIS CATALOGUE

Each product page in this catalogue follows a consistent format. Here’s what every element means:

Slab Size

All designs are manufactured in Super Jumbo format: 137 × 79 inches (347 × 201 cm). This is one of the largest slab formats available in engineered quartz, enabling seamless installations with minimal joints.

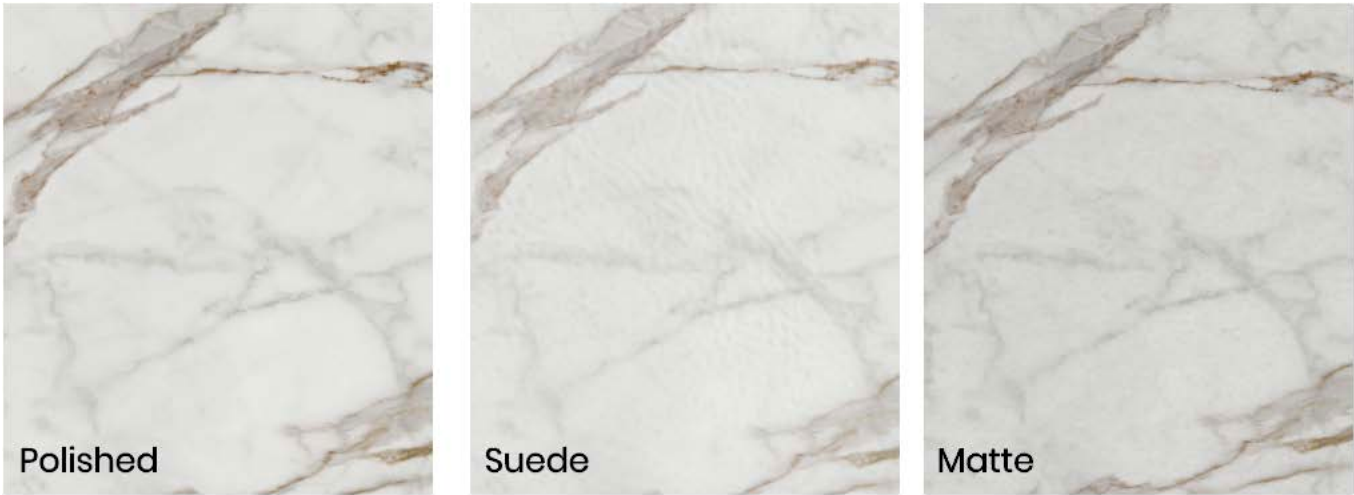

Thickness Options

12mm (KosmicLite): Ultra-lightweight, ideal for wall cladding, furniture, and applications where reduced weight matters. Available in Kosmic & Vision Series only.

15mm : Balanced in strength and versatility, 15mm offers enhanced durability with a refined profile — ideal for countertops, vanities, and interior applications

20mm: The standard thickness for countertops, vanity tops, and most interior applications.

30mm: Premium thickness for high-end countertops, bar tops, and feature installations where visual mass matters.

Finishes

Polished: A high-gloss, reflective finish that enhances colour depth and veining detail. Best for formal, luminous spaces.

Suede: A soft matte finish with a velvety tactile quality. Fingerprint-resistant, ideal for high-traffic surfaces and contemporary interiors.

Matte : A smooth, non-reflective finish with a subtle, understated appearance. Minimizes glare and conceals fingerprints or surface imperfections, making it ideal for modern, minimalist interiors and low-maintenance surfaces.

VISION SERIES

The Art of Stone

HORIZON VEIL

Veins of Prestige, Cast in Stone

Delicate grey veining intertwined with warm golden accents gives this slab a naturally radiant appeal. Perfect for premium interiors, it brings both subtle drama and enduring beauty.

Spaces · Luxury Countertops

Vision Series utilises Breton Chromia digital inlayer printing technology. designed for HD, in-body infusion of slab surfaces. Using water-based inks that penetrate up to 300 microns deep, Vision Series transforms white mineral slabs into limitless natural stone, architectural, or creative designs.

The deep infusion ensures vibrant colour intensity even after polishing and edge detailing, creating a true full-body appearance. Anti-fingerprint properties and UV-Armour/X-Armour treatment provide enhanced resistance to UV and moisture for lasting clarity.

TAJ VEIN

The Icon that never goes unnoticed

The inaugural Vision series design replicates the warm ivory and golden veining of rare Taj marble with a fidelity impossible through traditional quartz manufacturing.

KOSMIC SERIES

Full-body exotic patterns crafted with
Breton robotic technology.

ASTRAL MIST

Silvery whites fold into soft graphite wisps, creating depth without weight. The veining drifts horizontally like morning fog settling across a frozen lake — never sharp, never static.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5002	12/20/30 mm	Polished,Suede,Matte

PALETTE

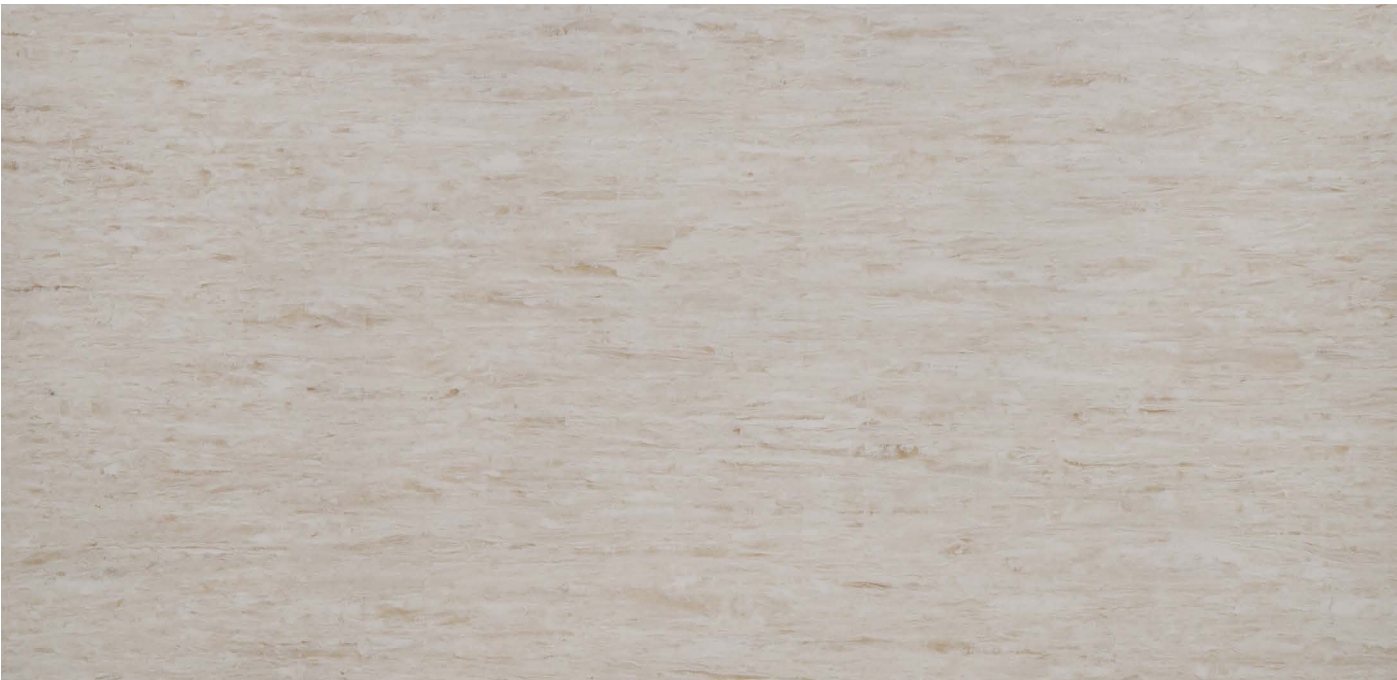

Cool white, dove gray, faint graphite

MOOD

Calm, airy, contemporary

BEST FOR

Open-plan kitchens, spa bathrooms, minimalist living walls

CAPPUCCINO

Layered tones of toasted almond and pale ochre ripple through a warm ivory base. The horizontal grain gives this surface a tactile, almost textile quality that reads as organic warmth without excess ornamentation.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5004	12/20/30 mm	Polished,Suede,Matte

PALETTE

Warm ivory, toasted almond, pale gold

MOOD

Inviting, grounded, residential

BEST FOR

Vanity tops, bathroom feature walls, hospitality reception desks

CHERRY HILL

A restrained composition in pale silver-blue with faint directional striations. Cherry Hill’s muted palette makes it a quiet anchor in spaces where the architecture and furnishings carry the design narrative.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5066	12/20/30 mm	Polished,Suede,Matte

PALETTE	MOOD	BEST FOR
Ice blue, silver-gray, soft periwinkle	Understated, clean, architectural	Commercial lobbies, corporate wash-rooms, modern kitchen backsplashes

DRIFTWOOD

Warm white with the faintest traces of sand and cedar, arranged in soft linear bands. Like sun-bleached timber, it has a weathered gentleness that pairs effortlessly with natural materials — linen, oak, brushed brass.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5010	12/20/30 mm	Polished,Suede,Matte

PALETTE	MOOD	BEST FOR
Warm white, sand, faint cedar	Coastal, relaxed, textural	Beach-house countertops, resort vanities, casual dining surfaces

FRENCH VANILLA

A creamy base with the slightest amber and rose-gold threading. Where most whites feel clinical, French Vanilla introduces just enough warmth to make a space feel considered, not sterile.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5064	12/20/30 mm	Polished,Suede,Matte

PALETTE

Cream, blush, amber-gold wisps

MOOD

Soft, refined, feminine warmth

BEST FOR

Master bathroom vanities, luxury kitchen islands, bridal boutiques

GOLDEN DAWN

Pale parchment streaked with honey-gold veins that run in long, confident diagonals. The warmth is subtle but unmistakable — like late-afternoon light falling through sheer curtains.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5013	12/20/30 mm	Polished,Suede,Matte

PALETTE

Parchment, honey, faint gold

MOOD

Luminous, warm, quietly luxurious

BEST FOR

Feature walls behind dining areas, warm-toned kitchen countertops

IRISH CREAM

Soft beige currents flow through a pale dove-gray field, creating a surface that reads differently depending on light and angle. The movement is gentle and geological, never sharp or contrived.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5016	12/20/30 mm	Polished,Suede,Matte

PALETTE

Dove gray, soft beige, warm taupe

MOOD

Tranquil, layered, nature-inspired

BEST FOR

Accent walls in living rooms, oversized kitchen islands, window sills

LATTE LUXE

Bold gold and ochre washes sweep across a milky-white ground in broad, painterly strokes. This is the most expressive design in the Kosmic series — it commands attention without needing embellishment.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5040	12/20/30 mm	Polished,Suede,Matte

PALETTE

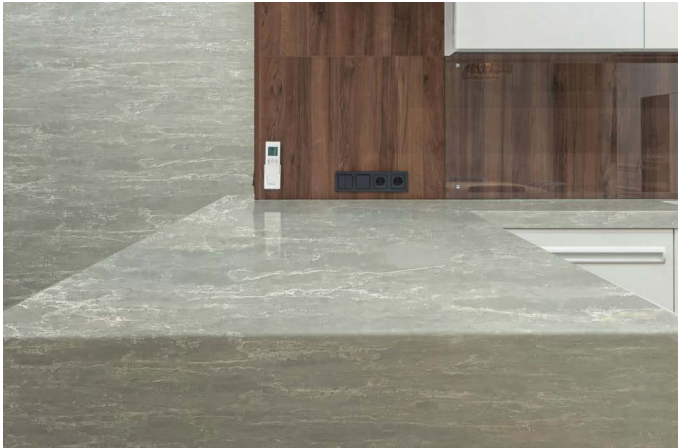

Milky white, rich ochre, antique gold

MOOD

Dramatic, artistic, statement-making

BEST FOR

Feature kitchen islands, bar counters, fireplace surrounds

MATCHA MIST

A deep sage-green surface with white mineral traces that surface like quartz veins in natural stone. Matcha Mist brings genuine colour into a market dominated by whites and grays — grounded, organic, and unexpectedly versatile.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5076	12/20/30 mm	Polished,Suede,Matte

PALETTE

Sage green, moss, white mineral

MOOD

Organic, bold yet serene, biophilic

BEST FOR

Restaurant counters, wellness centres, statement powder rooms

RUSKIN

Charcoal, slate, and storm-blue layer into a deeply stratified surface that feels genuinely geological. Each slab carries the visual weight of ancient sediment — intense, moody, and unapologetically dark.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5028	12/20/30 mm	Polished,Suede,Matte

PALETTE

Charcoal, slate blue, storm gray, white fractures

MOOD

Industrial, dramatic, masculine

BEST FOR

Bathroom accent walls, commercial bar tops, fireplace cladding

SAKURA

Dusty rose and lilac wash through a pale mineral base, shot through with white crystalline traces. Named for cherry blossoms, Sakura brings rare warmth and colour to quartz — a design that photographs beautifully in both natural and artificial light.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5077	12/20/30 mm	Polished,Suede,Matte

PALETTE

Dusty rose, soft lilac, white highlights

MOOD

Romantic, fresh, unconventional

BEST FOR

Boutique hotel bathrooms, patisserie counters, residential powder rooms

WALNUT

Rich bark-brown, weathered cream, and charcoal interlock in rough horizontal bands that mimic the cross-section of aged hardwood. Walnut bridges the gap between stone and timber, making it ideal for spaces that pair natural materials.

SERIES	CODE	THICKNESS	FINISH
Kosmic	5068	12/20/30 mm	Polished,Suede,Matte

PALETTE

Bark brown, weathered cream, charcoal

MOOD

Rustic-modern, tactile, warm contrast

BEST FOR

Coffee tables, feature walls, restaurant table tops

NEBULA SERIES

Veined marble aesthetics with
bold, sculptural patterns.

ALABASTER NOIR

Deep black with a web of fine white fractures that cut across the surface like lightning in a night sky. The veining is delicate enough to read as natural movement rather than pattern — understated drama at its best.

SERIES	CODE	THICKNESS	FINISH
Nebula	3003	20/30 mm	Polished,Suede,Matte

PALETTE

Jet black, white fracture veins

MOOD

Luxurious, moody, high-contrast

BEST FOR

Statement kitchen islands, executive boardroom tables, upscale bar counters

ARTEMIS

Cool white with an intricate scatter of olive-gold and gray veins that meander naturally across the slab. Artemis captures the look of rare Calacatta marble without the porosity or maintenance concerns.

SERIES	CODE	THICKNESS	FINISH
Nebula	3008	20/30 mm	Polished,Suede,Matte

PALETTE

Bright white, olive-gold, pale gray

MOOD

Classical, refined, gallery-worthy

BEST FOR

Bathroom feature walls, luxury vanity tops, hotel lobby cladding

ARYA

Pristine white interrupted by long, singular veins in warm gray and faint gold. The veins travel in sweeping arcs rather than busy networks, giving Arya an open, spacious feel that makes rooms appear larger.

SERIES	CODE	THICKNESS	FINISH
Nebula	3009	20/30 mm	Polished,Suede,Matte

PALETTE

Pure white, warm gray, hint of gold

MOOD

Minimalist, expansive, modern luxury

BEST FOR

Large-format backsplashes, island waterfalls, walk-in shower walls

AUREATE

A whisper-soft beige base with faint rose and taupe veins that appear and disappear as light shifts across the surface. Aureate’s subtlety makes it the ideal neutral for spaces where stone shouldn’t compete with art or furnishings.

SERIES	CODE	THICKNESS	FINISH
Nebula	3015	20/30 mm	Polished,Suede,Matte

PALETTE

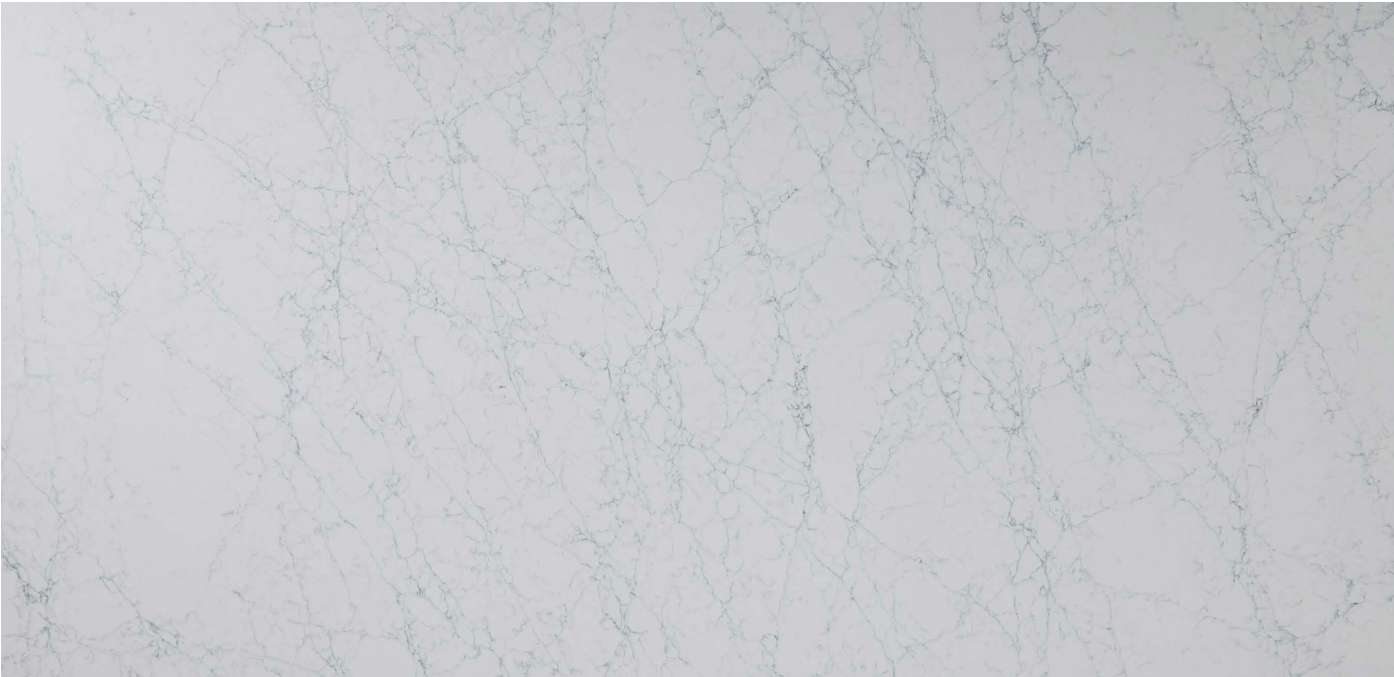

Soft beige, faint rose, taupe

MOOD

Quiet, warm-neutral, Harmonising

BEST FOR

Residential countertops, soft-toned bathroom vanities, gallery spaces

DEEP WAVE

Delicate silver-grey veining flows seamlessly across a luminous white base, forming fluid, wave-like patterns that evoke calm movement and contemporary grace.

SERIES	CODE	THICKNESS	FINISH
Nebula	3010	20/30 mm	Polished,Suede,Matte

PALETTE

Soft Silver ·
Cool Grey · Mist Ash

MOOD

Calm, tailored,
contemporary

BEST FOR

Modern Residential Interiors
Light-Tone Commercial Spaces

BELLAGIO

Bold gray-blue veins cascade through bright white in sweeping, dramatic strokes. Bellagio has the most movement of any design in the Nebula series — it reads as natural marble with the performance of engineered quartz

SERIES	CODE	THICKNESS	FINISH
Nebula	3017	20/30 mm	Polished,Suede,Matte

PALETTE

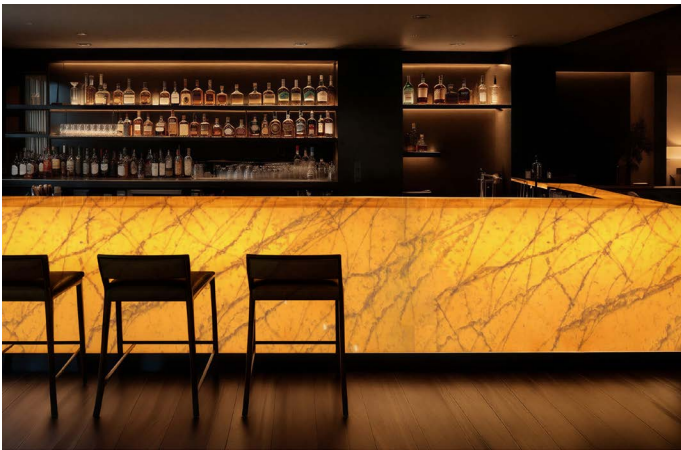

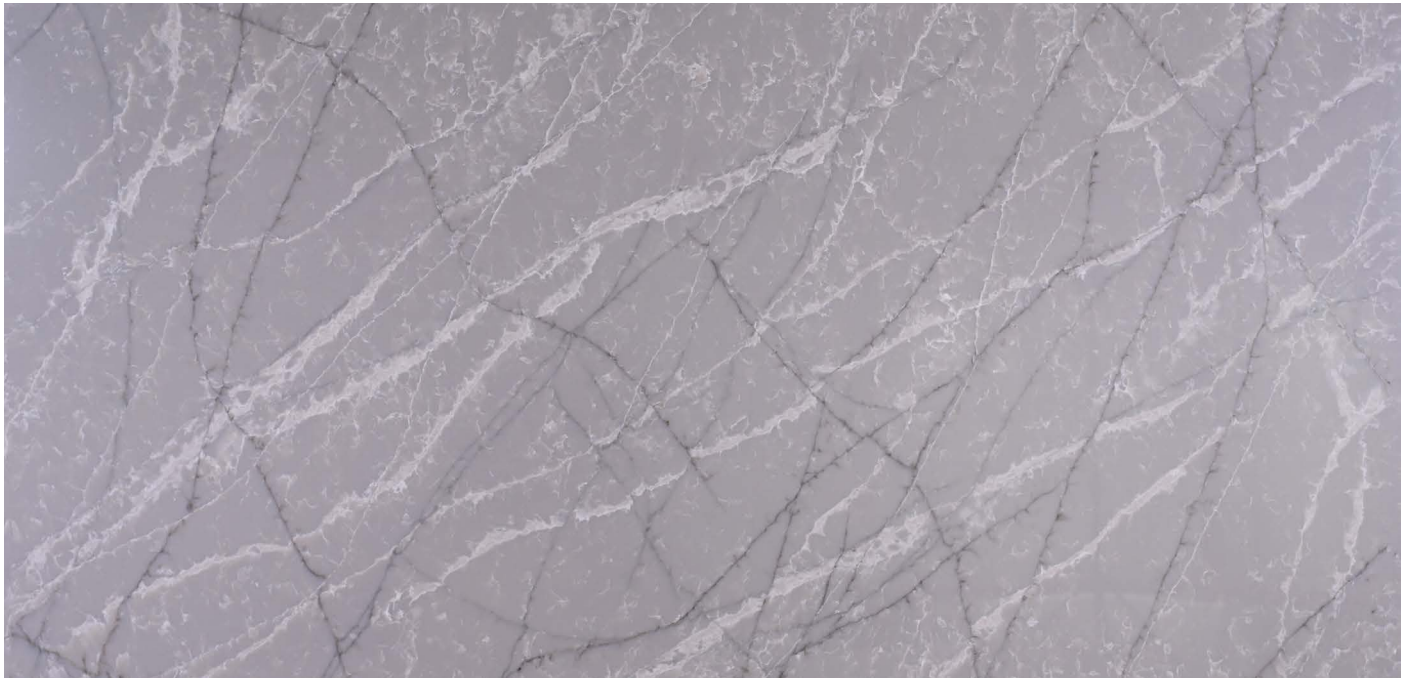

Bright white, steel
blue, charcoal

MOOD

Grand, opulent,
European

BEST FOR

Master bathroom floors, luxury kitchen
islands, elevator lobby walls

BOHEMIA

Illuminate your space with Bohemia from the Translucent Series: smoky lavender-gray quartz with dramatic charcoal veins, perfect for stunning backlit countertops and walls.

SERIES	CODE	THICKNESS	FINISH
Nebula	3019	20/30 mm	Polished,Suede,Matte

PALETTE

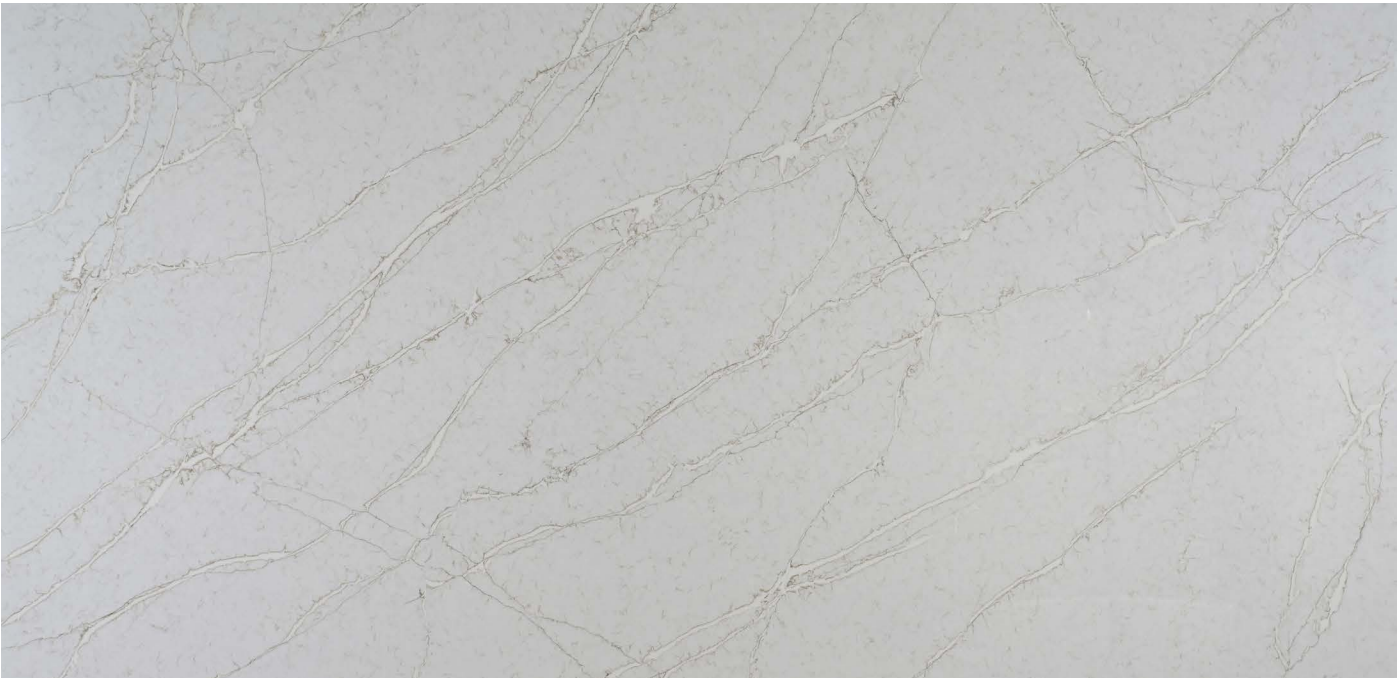

Lavender-gray, deep charcoal, white

MOOD

Artistic, expressive, unconventional

BEST FOR

Design studio surfaces, boutique hotel walls, modern dining features

COSTA

Warm white with meandering brown-gold veins that branch and converge like river tributaries on a topographic map. The veining is deliberate without being geometric — natural movement captured in engineered precision.

SERIES	CODE	THICKNESS	FINISH
Nebula	3025	20/30 mm	Polished,Suede,Matte

PALETTE

Warm white, brown-gold, faint honey

MOOD

Mediterranean, warm, inviting

BEST FOR

Kitchen countertops, outdoor covered bars, coastal home interiors

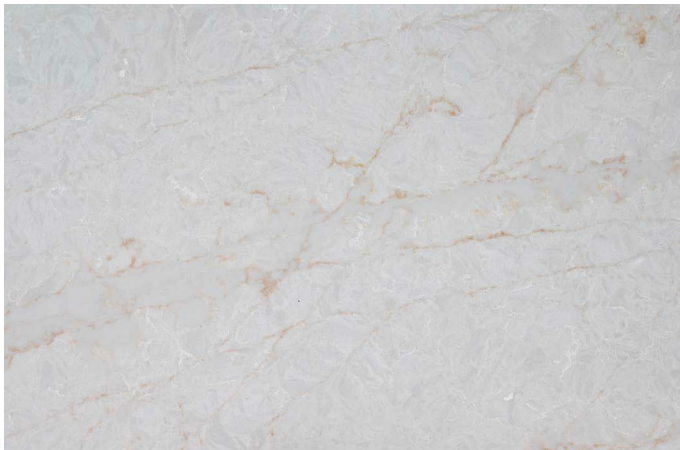

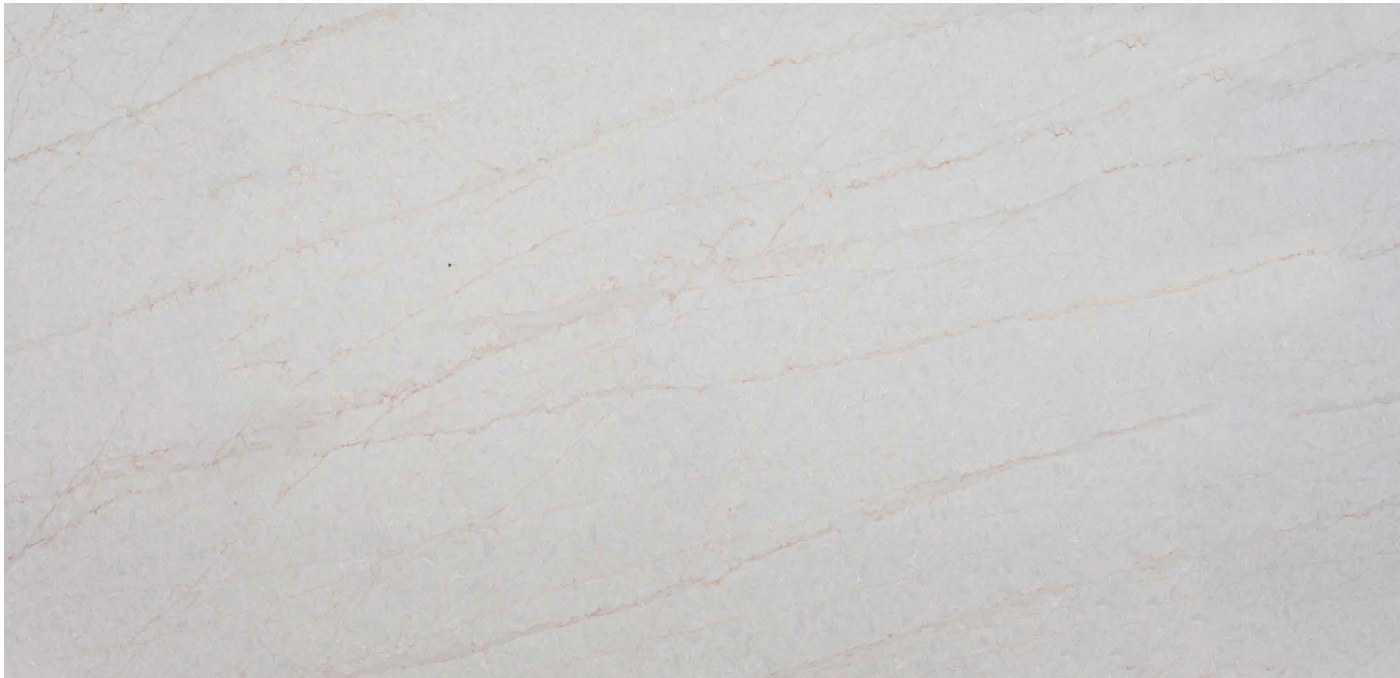

GLACIAL SILVER

Pale silver with a clouded, translucent quality and veins that appear as though viewed through frosted glass. Under backlighting, Glacial Silver takes on an almost luminous glow — ideal for spaces that play with light.

SERIES	CODE	THICKNESS	FINISH
Nebula	3055	20/30 mm	Polished,Suede,Matte

PALETTE	MOOD	BEST FOR
Pale silver, cloud white, translucent	Ethereal, luminous, Icy elegance	Hotel reception desks, backlit feature walls, lift lobby cladding

HAZEL GOLD

Clean white with long diagonal veins in warm rose-brown that trace across the slab like calligraphy strokes. The simplicity is the strength: Hazel Gold lets each vein read as an intentional mark on a pristine canvas.

SERIES	CODE	THICKNESS	FINISH
Nebula	3039	20/30 mm	Polished,Suede,Matte

PALETTE	MOOD	BEST FOR
Clean white, rose-brown diagonals	Calligraphic, precise, warm simplicity	Bathroom countertops, kitchen backsplashes, light-filled interiors

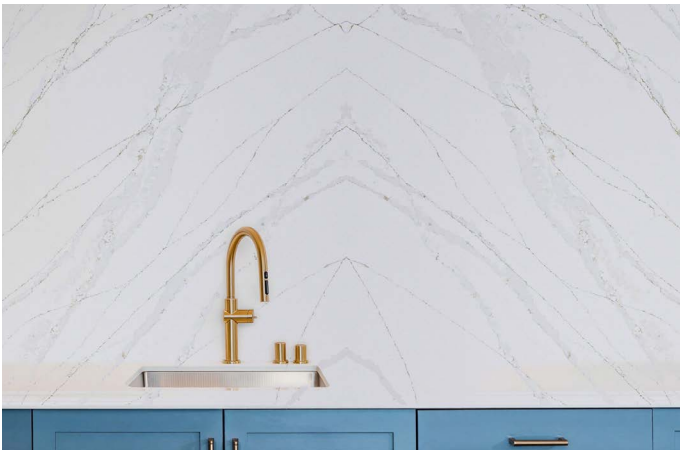

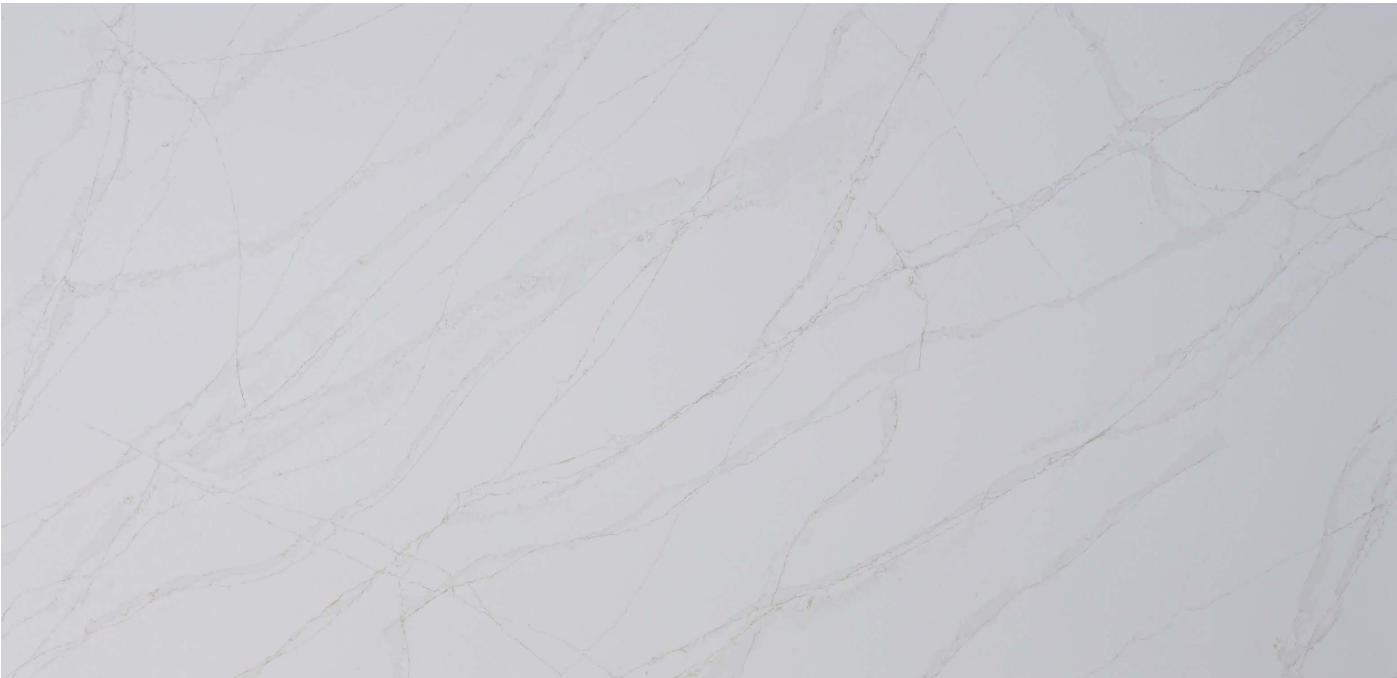

HERMES

A complex, particulate surface in warm gray-beige with dark veins that meander through a field of visible mineral inclusions. Hermes has the closest resemblance to natural quartzite — tactile, geological, rich with visual texture.

SERIES	CODE	THICKNESS	FINISH
Nebula	3040	20/30 mm	Polished,Suede,Matte

PALETTE	MOOD	BEST FOR
Warm gray-beige, dark veins, minerals	Natural, complex, textural depth	Outdoor kitchen counters, rustic-modern interiors, statement tables

HONEYDEW

Cool blue-white with fine veins in warm gray that seem to float across the surface. The overall impression is of space and lightness — a surface that recedes rather than demands, making it perfect as a backdrop.

SERIES	CODE	THICKNESS	FINISH
Nebula	3041	20/30 mm	Polished,Suede,Matte

PALETTE	MOOD	BEST FOR
Blue-white, warm gray, gentle movement	Spacious, fresh, quietly confident	Large wall cladding, open-plan kitchens, commercial restrooms

CELESTIA SERIES

Subtle, refined surfaces with minimal
veining and gentle tonal shifts.

SEASONS

Soft white with a gentle blush of warmth and fine particulate detail that gives it a handmade, almost paper-like quality. Seasons works beautifully in spaces designed around simplicity and restraint.

SERIES	CODE	THICKNESS	FINISH
Celestia	4005	20/30 mm	Polished,Suede,Matte

PALETTE

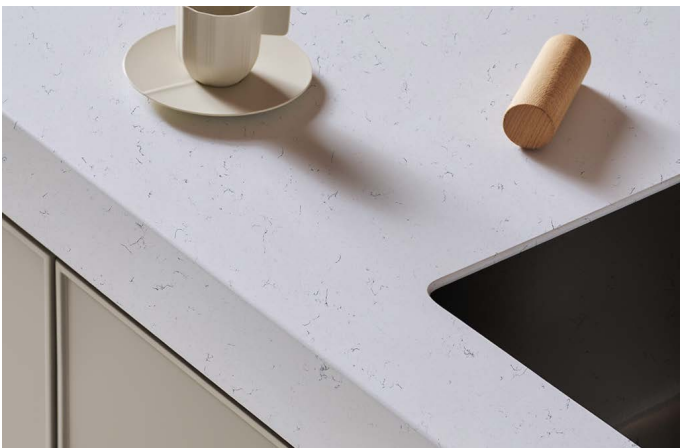

Soft white, warm undertone, fine particulate

MOOD

Organic, gentle, considered

BEST FOR

Tea rooms, minimalist kitchens, well-ness spaces

SONEVA

Crisp white with the lightest scattering of gray veining that reads more as a texture than a pattern. Soneva is the cleanest surface in the catalogue — sophisticated without trying.

SERIES	CODE	THICKNESS	FINISH
Celestia	4001	20/30 mm	Polished,Suede,Matte

PALETTE

Crisp white, light gray veining

MOOD

Serene, pristine, effortless

BEST FOR

Luxury apartment kitchens, medical offices, showroom counters

STELLA

Off-white with scattered golden speckles that catch the light like mineral deposits in sandstone. Stella occupies the space between pure white and warm neutral – versatile enough for any palette but interesting enough to stand alone.

SERIES	CODE	THICKNESS	FINISH
Celestia	4002	20/30 mm	Polished,Suede,Matte

PALETTE

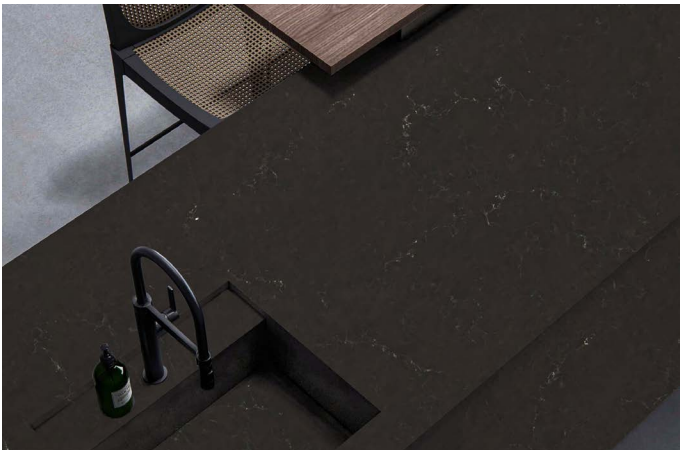

Off-white, golden speckles, warmth

MOOD

Warm, shimmering, adaptable

BEST FOR

Restaurant table tops, residential counters, bathroom vanities

ZENITH

Deep charcoal with faint lighter veins that emerge only on close inspection. Zenith is the darkest surface in the Celestia series, offering the restraint of a solid colour with just enough geological detail to feel natural.

SERIES	CODE	THICKNESS	FINISH
Celestia	2013	20/30 mm	Polished,Suede,Matte

PALETTE

Deep charcoal, faint silver-gray veins

MOOD

Contemplative, grounding, modern

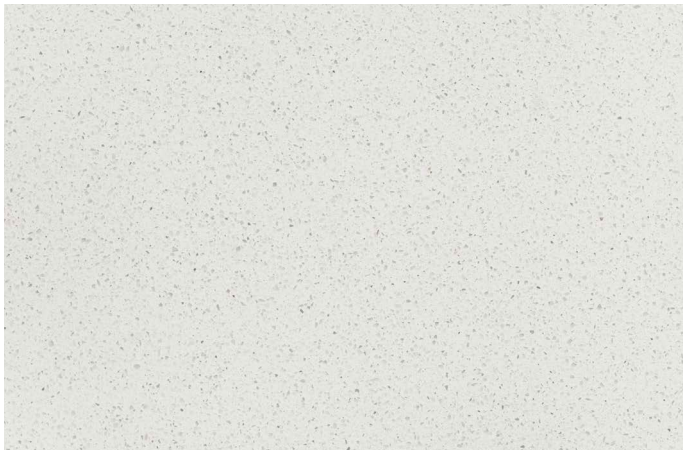

BEST FOR

Wine bars, masculine bathrooms, contrast islands in light kitchens

AURORA SERIES

Monochrome solids and fine speckles
for maximum versatility.

ARVA WHITE

Pure white with fine quartz grit that gives the surface a subtle crystalline texture under raking light. Arva White is the workhorse of the collection — clean, durable, and endlessly combinable.

SERIES	CODE	THICKNESS	FINISH
Aurora	1002	20/30 mm	Polished,Suede,Matte

PALETTE

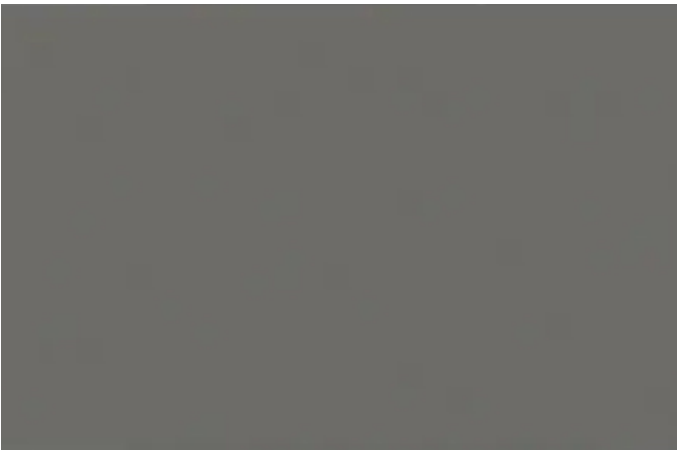

Pure white, fine quartz grit

MOOD

Clean, functional, bright

BEST FOR

Commercial kitchens, laboratory surfaces, retail counters

CLASSIC GRAY

A consistent mid-gray with no veining and a smooth, uniform finish. Classic Gray provides the visual weight of stone without the distraction of pattern — the ideal complement to bold cabinetry or statement lighting.

SERIES	CODE	THICKNESS	FINISH
Aurora	1005	20/30 mm	Polished,Suede,Matte

PALETTE

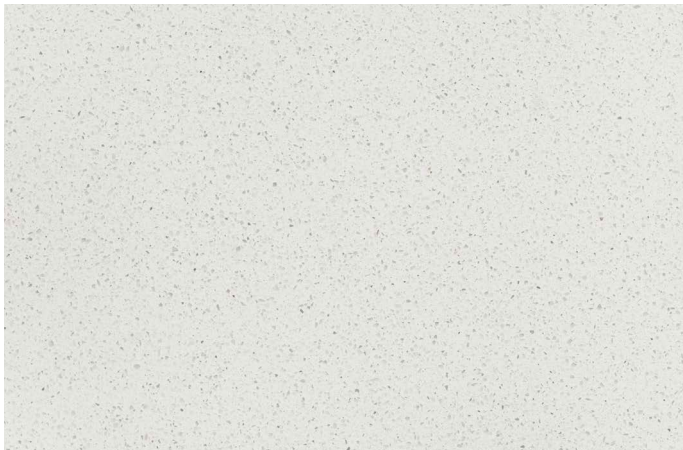

Uniform mid-gray

MOOD

Neutral, grounding, architectural

BEST FOR

Modern kitchen counters, commercial reception desks, bathroom surrounds

ECHO WHITE

Bright white with a delicate shimmer of fine speckles that add depth without pattern. Echo White reads differently from Arva White by offering a slightly warmer, more dimensional surface quality.

SERIES	CODE	THICKNESS	FINISH
Aurora	1001	20/30 mm	Polished,Suede,Matte

PALETTE

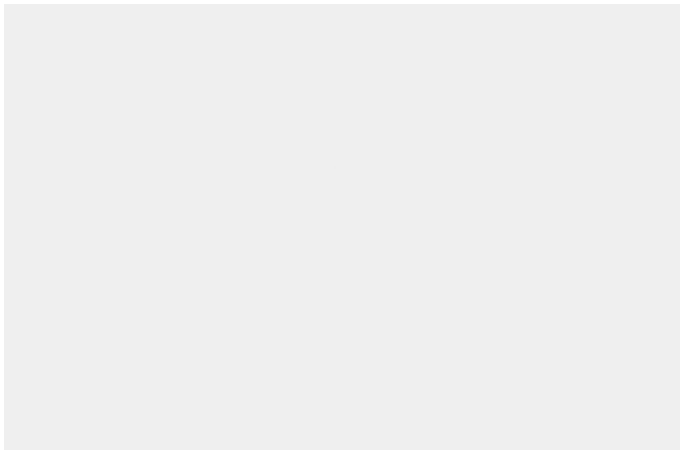

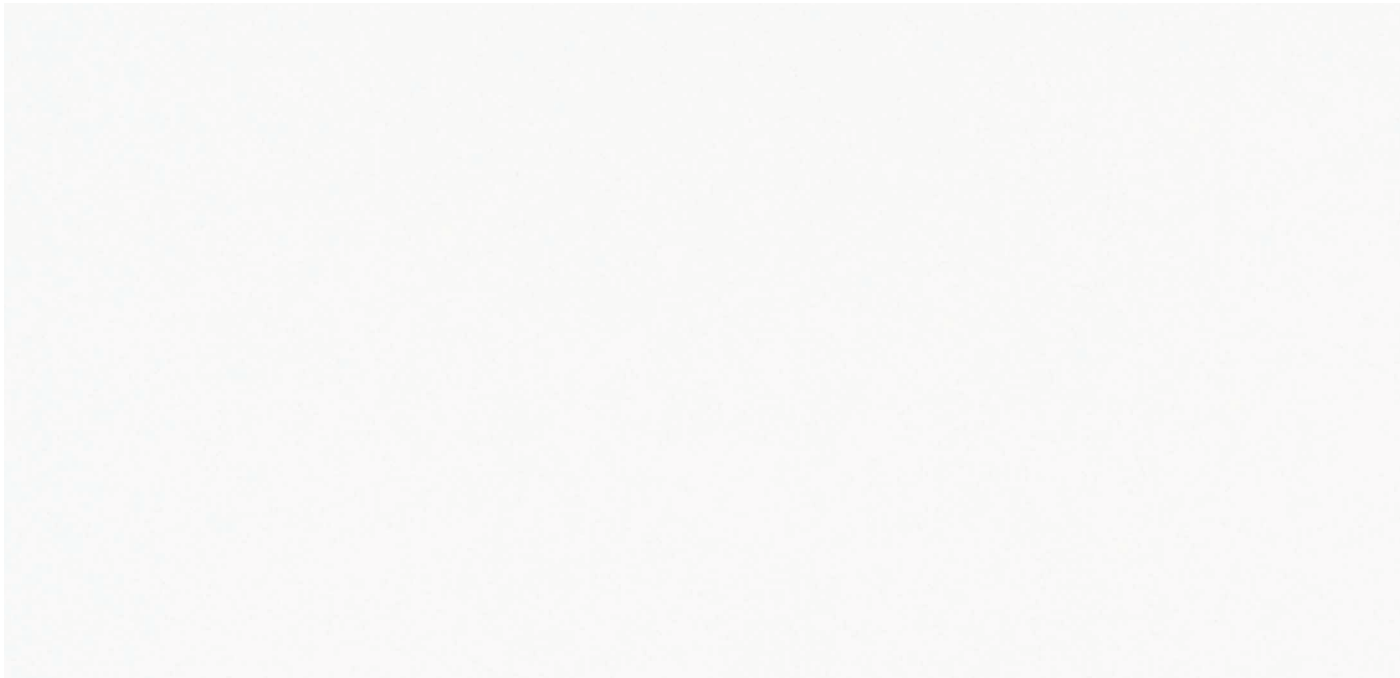

Bright white, warm shimmer speckles

MOOD

Luminous, warm-bright, elegant simplicity

BEST FOR

High-end residential kitchens, boutique retail, gallery installations

SUPER WHITE

The brightest, most uniform white in the Pacific range. No veining, no visible particulate — pure reflective white. Super White maximises perceived room size and pairs seamlessly with any material palette.

SERIES	CODE	THICKNESS	FINISH
Aurora	1009	20/30 mm	Polished,Suede,Matte

PALETTE

Pure bright white, no texture

MOOD

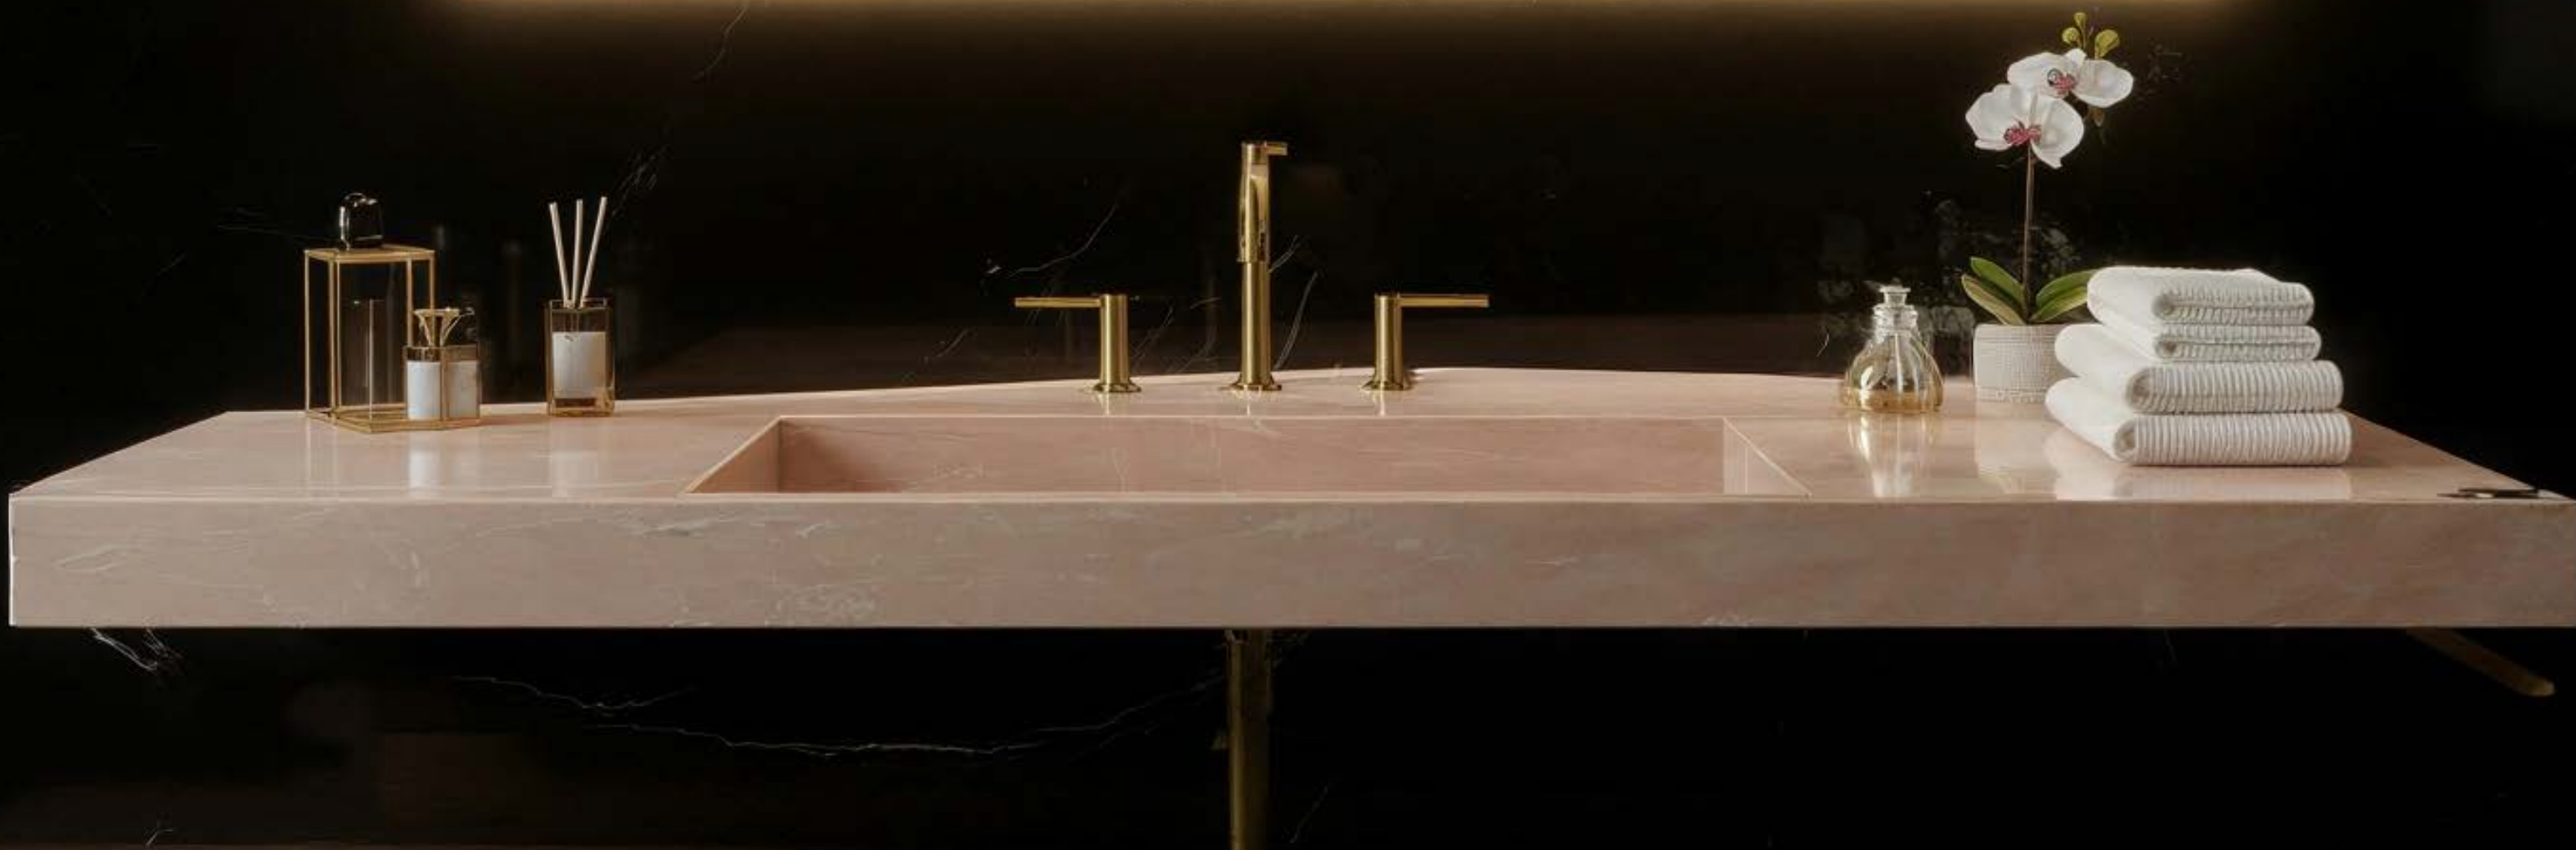

Ultra-clean, expansive, clinical precision

BEST FOR

Medical facilities, photography studios, minimalist kitchens

PACIFIC INTEGRA

Sinks Redefined

ROYAL BASIN

Engineered from the same quartz slab as your countertop, Pacific Integrated Sinks offer a flawless, joint-free finish that’s both hygienic and visually stunning. Each sink is meticulously designed to ensure smooth edges, easy maintenance, and lasting durability.

DIMENSIONS	
Overall Dimensions	60 IN X 22 IN
Basin Dimensions	26 IN X 18IN
Depth	4 IN

Sizes can be customised*

GRAND EDGE

Engineered for high-capacity use, Grand Edge features a deep bowl and rear drain geometry for maximum efficiency. Ideal for pantries, prep zones and hospitality kitchens, it blends industrial-grade performance with the elegance of integrated quartz design.

DIMENSIONS	
Overall Dimensions	48 IN X 22 IN
Basin Dimensions	24 IN X 15 IN
Depth	3 IN

Sizes can be customised*

CASA CURVE

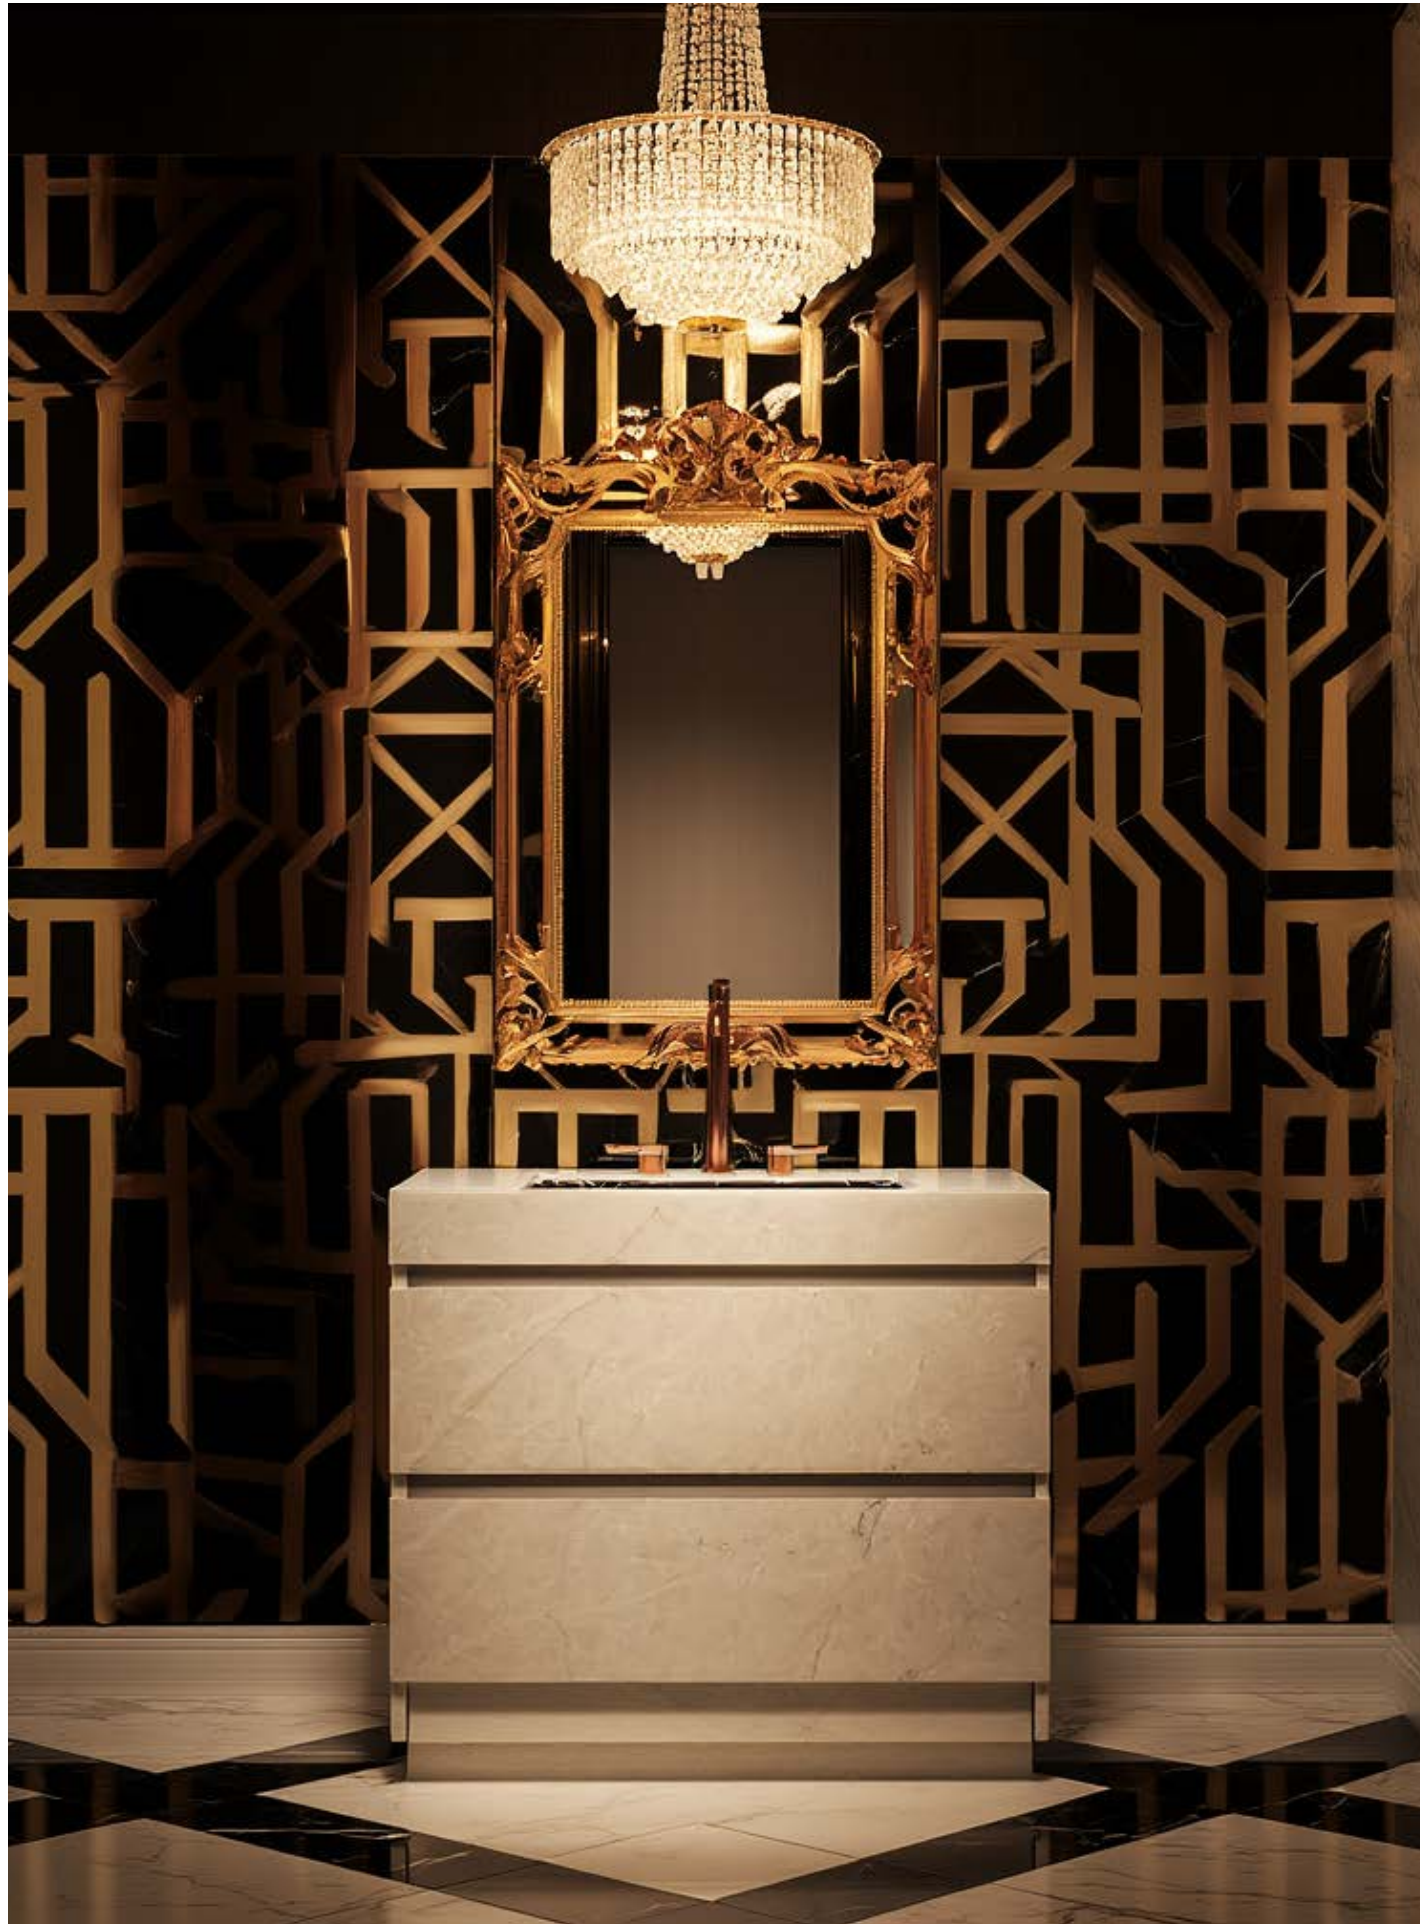

Defined by its flat base and geometric form, Casa Curve is the embodiment of modern precision. Its rectilinear basin allows efficient workflow and easy integration with large countertops, making it ideal for premium modular kitchens and chef islands that emphasize minimalism and symmetry.

DIMENSIONS	
Overall Dimensions	48 IN X 22 IN
Basin Dimensions	24 IN X 15 IN
Depth	3.5 IN

Sizes can be customised*

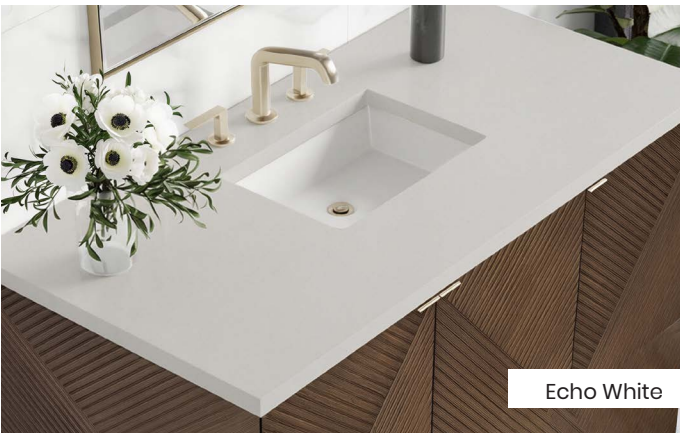

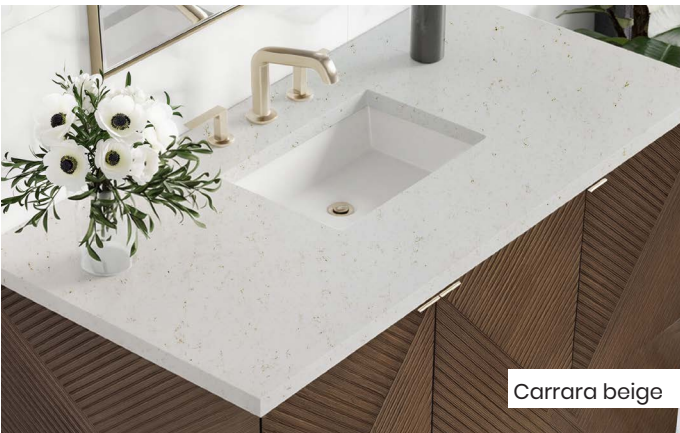

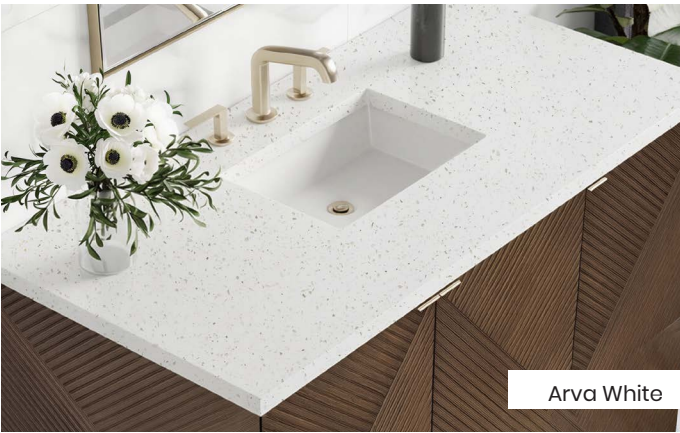

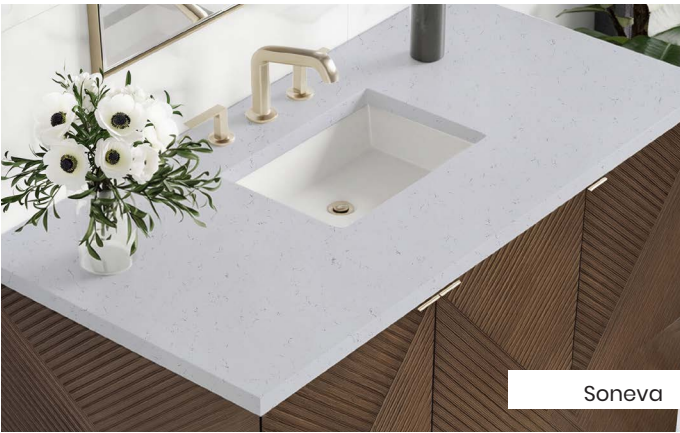

Monolith Quartz Vanity

A statement of permanence.

Every surface flows as one – top, basin, drawers, sides, and base – creating a seamless architectural presence that feels grounded, solid, and enduring. The integrated sink is precision CNC-cut directly from the quartz slab, delivering crisp geometry, flawless continuity, and a sense of permanence rarely seen in bathroom furniture.

A monolithic quartz vanity defined by clean lines, seamless surfaces, and understated elegance. Precision-crafted to bring architectural clarity and quiet luxury to contemporary bathrooms.

Global Standards, Local Precision

Exclusive Partnerships

We collaborate with select partners to develop signature surfaces for large-scale applications — proprietary finishes and patterns created to define brands, not just spaces. From boutique European kitchen studios to national hospitality chains, Pacific prefab delivers at scale without compromising craft.

Warranty

Every prefabricated Pacific surface is backed by a lifetime warranty for residential installations and extended coverage for commercial projects — a commitment to long-term performance, not just point-of-sale confidence.

We are not just manufacturing quartz. We are shaping enduring surfaces.

CERTIFICATIONS & COMPLIANCE

NSF Certified

Material suitable for food contact. NSF assures that a certified product, material, component or service complies with the technical requirements of the referenced standard.

ISO 9001

Certification based on the international standard for quality management systems.

Red List Free

A disclosure confirming our products do not contain banned substances that cause cancer, DNA damage, hormonal disruption, or environmental pollution.

CE Marked

Our products meet European safety, health, and environmental standards, enabling trust across European markets.

Kosher Certified

We comply with a strict policy of kosher food laws, including cleanliness, purity, and quality.

CARE & MAINTENANCE

Preserving Your Surface

- Step 1: Apply neutral soap to the affected area and gently rub in a circular motion with a damp microfiber cloth.
- Step 2: Leave to work for a couple of minutes. Then, with a wet cloth, wipe off any soap residue.
- Step 3: Dry with soft cloth or paper towel.

A Surface Beyond Beauty

Crafted with advanced engineering and timeless aesthetics, Pacific surfaces are designed to perform as beautifully as they look.

Engineered Excellence

- Layered full-body integrated design
- Zero crystalline silica composition
- Superior heat resistance
- Precision manufacturing with advanced inlayer technology

Performance Without Compromise

- Non-porous and highly stain resistant
- Scratch and impact resistant
- Naturally antibacterial surface
- Built to withstand daily use for decades

Responsible Manufacturing

- Produced using up to 88% recycled materials
- Minimum 20% recycled content in every surface
- 99% water reused during production
- Powered by 100% renewable electric energy

Timeless Durability

- Distinct natural aesthetics in every design
- Long-lasting structural strength
- Resistant to cracking, scratching, and wear
- Beauty engineered to endure
